## **AGC completes acquisition of building at 12 Gul Lane, Singapore 629411**

AGC Multi Material Singapore (AMMS), Thursday, May 20, 2021 is pleased to announce the acquisition of building and land at 12 Gul Lane, Singapore 629411, in a deal recently completed with the Singapore government. The acquisition solidifies our long term commitment to enhance our presence in Singapore while providing our customers a stable and secure supply of copper clad laminates and prepregs.

The new building and land are adjacent to the existing Singapore campus and will allow AMMS to upgrade our equipment and expand capacity for next generation ultralow loss materials. In addition, AMMS is pleased to announce the launch of a new treater investment program aimed at producing highly advanced prepregs and incorporating state of the art technology which will ensure our customers will benefit from the best technology for many years to come. These investments enhance our commitment to being a global technology leader in the ultralow loss CCL industry.
