

Your Dreams, Our Challenge

## ***News Release - AGC Multi Material America Announces Partnership with Tritek Circuit Products***

AGC Multi Material America, Inc. is proud to announce that effective September 1, 2021, they will be partnering with Tritek Circuit Products. Tritek will become the West Coast distributor for AGC Multi Material America's digital laminate and prepreg materials.

"AGC Multi Material America is excited to provide a West Coast partnership to better service our customers through distribution warehouses and technical sales and service. Tritek brings years of experience to this partnership and aligns with AGC Multi Material's goals of providing innovative material solutions for advanced interconnects, along with best-in-class technical service and support to our customers. Tritek's warehousing, product offerings and its infield Technical Sales team will allow for quicker turn time of materials and improved, local technical support" said Tony DiGaudio, SVP of Sales and Marketing.

"We are excited to be growing our relationship with AGC Multi Material America, Inc. Working together we are able to tie the Tritek strengths in on site customer service and logistics with AGC Multi Material's local manufacturing and product support to meet the varied needs of our customers as the industry continues to evolve," said Steven Kenney, President of Tritek Circuit Products.

### **About Tritek Circuit Products**

Tritek Circuit Products is a customer centric, full-service distributor to the PCB fabricators in the region. Tritek is in its 30<sup>th</sup> year of doing business with the same mission of bringing world class products and expert level technical service to our customers.
